Reduction of pump header pressure in the Raw water transfer pump by reduction of 9 Ata extraction steam pressure for Distillery operation.

(b) Additional investments and proposals, if any, being implemented for reduction of consumption of energy:

No significant investment is envisaged.

(c) Impact of the measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production of goods:

Consumption of steam for sugar process is reduced.

The Company's total sugarcane crushing capacity is 19,000 TCD with three sugar mills in the State of Tamilnadu at Sakthinagar, Erode District with a capacity of 9,000 TCD, Modakurichi, Erode District with a capacity of 3,500 TCD and at Padamathur, Sivaganga District with a capacity of 4000 TCD and a sugar mill at Dhenkanal in the state of Orissa with a crushing capacity of 2,500 TCD.

The Company has three cogeneration power plants alongside its sugar units in Tamil Nadu at Sakthinagar, Modakurichi and Sivaganga with an aggregate power generation capacity of 92 MW per hour. Another cogeneration plant of 25 MW per hour capacity is under implementation at Sakthinagar.

The Company has two Distillery units, one at Sakthinagar with 36000 KL per annum and the other at Dhenkanal with 10000 KL per annum

The Company has an integrated Soya complex with a capacity to process 90000 TPA of soya bean at Pollachi.

Performance During the year under review

During the year under review, the total cane crushing was 30.56 lakh MT with an average sugar recovery of 9.37% of sugar from the cane crushed. The Company has sold 28.89 lakh quintals of sugar valued at Rs.846.98 crores. In Distillery Division, 430.10 lakh Litres of Industrial Alcohol was produced for the year ended 31st March 2013. In the cogeneration plants 3087.36 lakh units of power was generated of which 1961.98 Lakh units of power was exported to the State grid of Tamilnadu Electricity Board.

Industry Structure and Developments

It is estimated that country's sugar production would be about 24 million tonnes in 2013-14 compared to 24.6 million tonnes last year due to drought in the states of Tamilnadu, Maharashtra and Karnataka. The domestic demand is projected to be 22.5 million tonnes. The area under sugarcane cultivation as of first week of May is 11 per cent less than the earlier year and lowest since the 2009-2010 season. The reduction in area under sugarcane will lead to shortage of sugar output in 2013-14. For the past three consecutive years, the country has registered a surplus in sugar output. The current year may turn out to be a year of deficit.

The Food Ministry has rescinded the control over sugar industry partially by decontrolling sale of sugar in the open market and by withdrawing the levy obligation for PDS. As a result, the regulated release mechanism under which sugar quantity for open market sale is fixed by the government has been abolished.

Opportunities

Abolition of release mechanism gives opportunity to sell sugar based on market situation and withdrawal of levy quota will help to realise market price instead of discounted price for the levy quantity. Decreased volume of sugarcane production will result in lower production of sugar which may result in increase in prices of sugar.

Threats

The other controls on the sugar sector such as pricing of cane, cane reservation area and minimum distance between two mills have been left to the state governments. The policies of the State Government will have an impact on the operation of the sugar mills.

Free market sale of sugar without control may result in competition among mills and reduction in selling price of sugar.

Segment wise and Product wise performance

Segment wise results are given in the accounts for the year ended 31.3.2013. Product wise performance is furnished in the Directors Report.

Financial Performance with respect to Operational Performance

The total revenue for the year under review is Rs. 117365.98 lakhs (Rs. 110776.60 lakhs). The year has ended with a loss of Rs. 11747.76 lakhs after providing Rs. 13680.63 lakhs for finance cost, and Rs. 6598.08 lakhs for depreciation and amortization expense. (previous year loss Rs. 5350.47 lakhs).

Internal Control System

The Company has an in-house internal audit function to ensure that all activities are monitored and controlled. Adequate internal checks are built-in to cover all monetary transactions. These checks and controls are reviewed for improvement periodically.

Human Resources Development

Industrial relations at all plants and offices remain cordial. The total number of employees at the financial year ended on 31st March 2013 on the rolls of the Company was 1730. Training programmes are conducted depending on the needs for updating the knowledge with respect to the developments in the industry.
